Warning

Please read the following information carefully.

- Built-in component, suitable enclosure and type of supply connection should be provided by end system.
- When installing the component, EN IEC 62368-1:2020+A11:2020 must be fulfilled.
- This built-in component shall be connected to a DC source, which is insulated from the AC mains supply by double or reinforced insulation.
- The Liquid Cooling is not intended to be repaired by service personal in case of failure or component defect.
- The Liquid Cooling shall not be exposed to dripping or splashing and no objects filled with liquid shall be placed on the apparatus.
- The Liquid Cooling must not be disposed together with the domestic waste. This product has to be disposed at an authorized place for recycling of electrical and electronic appliances. By collecting and recycling waste. You can help save natural resources and make sure the product is disposed in an environmental friendly and healthy way.

Specifications

- The product is a built-in component, when installed in final system, suitable enclosure and type of supply connection should be provided and all requirement of IEC 62368-1 should be fulfilled.
- Maximum working pressure at the normal operating condition : 0.0625_MP.
- Maximum working pressure at the abnormal operating condition and single fault condition : 0.0625_MP.
- Maximum operating ambient temperature : 40°C
- Maximum temperature during normal operating condition : 63.8°C
- Maximum temperature during abnormal operating condition and single fault condition : 69.7°C

Avertissement

Veuillez lire attentivement les informations suivantes.

- Ce composant est intégré ; un boîtier approprié ainsi que le type de raccordement à l'alimentation doivent être fournis par le système final.
- Lors de l'installation du composant, la norme EN IEC 62368-1:2020+A11:2020 doit être respectée.
- Ce composant intégré doit être connecté à une source de courant continu (CC) isolée du réseau d'alimentation CA par une isolation double ou renforcée.
- Le système de refroidissement liquide n'est pas conçu pour être réparé par le personnel de maintenance en cas de panne ou de composant défectueux.
- Le système de refroidissement liquide ne doit pas être exposé à des égouttements ou à des éclaboussures, et aucun objet rempli de liquide ne doit être placé sur l'appareil.
- Le système de refroidissement liquide ne doit pas être jeté avec les ordures ménagères. Ce produit doit être mis au rebut dans un point de collecte agréé pour le recyclage des appareils électriques et électroniques. En collectant et en recyclant les déchets, vous contribuez à préserver les ressources naturelles et à garantir que le produit est éliminé de manière écologique et respectueuse de la santé.

Spécifications

- Le produit est un composant intégré. Lorsqu'il est installé dans le système final, un boîtier approprié ainsi que le type de raccordement à l'alimentation doivent être fournis, et toutes les exigences de la norme IEC 62368-1 doivent être satisfaites.
- Pression de service maximale en conditions normales de fonctionnement : 0,0625 MPa.
- Pression de service maximale en conditions anormales de fonctionnement et en condition de premier défaut : 0,0625 MPa.
- Température ambiante maximale de fonctionnement : 40 °C.
- Température maximale en conditions normales de fonctionnement : 63,8 °C.
- Température maximale en conditions anormales de fonctionnement et en condition de premier défaut : 69,7 °C.

Regulatory Notices

FCC-B Radio Frequency Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and radiates radio frequency energy, and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

NOTE

- The changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- Shield interface cables and AC power cord, if any, must be used in order to comply with the emission limits.

FCC Conditions

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference.
- This device must accept any interference received, including interference that may cause undesired operation.

Déclaration d'Industrie Canada relative à l'exposition aux ondes radio

Cet appareil a été testé et s'est avéré conforme aux limites établies par Industrie Canada en terme d'exposition aux radiations dans un environnement non contrôlé. Afin de rester en conformité avec ces exigences, évitez tout contact direct avec l'antenne pendant la transmission et suivez les instructions d'utilisation de ce manuel.

Son utilisation est sujette aux deux conditions suivantes :

- Cet appareil ne doit pas créer d'interférences, et
- Cet appareil doit tolérer tout type d'interférences, y compris celles susceptibles

de provoquer un fonctionnement non souhaité de l'appareil.

Pour éviter les interférences radio avec le service sous licence (c'est à-dire le partage de canal avec les systèmes de téléphonie satellite), cet appareil est destiné à être utilisé en intérieur et loin des fenêtres pour fournir un blindage maximal. Tout appareil (ou son antenne d'émission) qui est installé en extérieur est sujet à cette licence.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence.
